Prairie and MIAI Artificial Intelligence Summer School

also co-organized by Naver Labs, Inria, and UGA

About Prairie and MIAI

These are two research institutes (one in Paris, and one in Grenoble), which are part of the French network of research centers in AI, selected after a competitive call in 2019.

There goals are

- to make a significant contribution to driving progress in fundamental knowledge in AI freely distributed among the international scientific community;
- to take part in solving concrete problems with a major application-related impact;
- to contribute to training in the field of artificial intelligence.

- Be gentle, follow classical codes of conducts from regular ML conferences (e.g., ICML and NeurIPS). Contact us directly in case of any problem.

Security

- there will be **one different zoom link every day**, which will be sent by email the day before. **Do not share the link outside of the summer school**.
- Note that the lectures will be available live on Youtube.
- **Do not share the Gather town link and password**.
